

CADPRO Systems Ltd Acquires Salesoft CAD Solutions Ltd

Effective Thursday 23rd June 2016, the amalgamation of these two businesses will create the largest New Zealand owned Autodesk reseller with over 20 staff based in Auckland and Christchurch.

The integration of Salesoft CAD Solutions into CADPRO Systems Ltd is a positive move for the Autodesk user community in New Zealand. Hans Grootegoed, Managing Director of CADPRO Systems comments *"Many changes are happening in the software industry such as evolving licensing models, cloud based computing and new technologies to improve workflow and collaboration. All these changes are placing demands on customers and resellers. The combined strengths of both our businesses will provide all of our customers an increased level of service with more resources and access to additional technical expertise."*

In the short term the only noticeable change to business for Salesoft customers, will be a change in the logo on invoices, a change in banking details and a move of the Salesoft business to CADPRO Systems offices located at Rosebank Business Park, Level 1, 527b Rosebank Road, Avondale, Auckland.

CADPRO Systems is employing the existing staff, including Shane McMillan, and we look forward to working together as a larger team. Salesoft CAD Solutions' customers are welcome to continue to interact with the same staff they have always worked with, via their existing phone number and email addresses. Over time, these phone numbers and email addresses will change.

All Salesoft CAD Solutions customers with existing Autodesk maintenance plans and/or subscriptions can be assured that their contracts remain unaffected and will be fully honoured by CADPRO Systems Ltd.

If you have any questions regarding your existing relationship, please do not hesitate to contact:
